

Health Care

Today's health care industry is one marked by complex legal and regulatory issues. This era of increasing government regulation, audit and enforcement has been especially challenging for the healthcare industry. Rising health care costs and government funding have resulted in new statutes and regulations, increased investigations, oversight and prosecutions and a heightened expectation of compliance. These challenges can be overwhelming for companies in this highly regulated industry. Our Firm offers innovative services to the healthcare industry including medical device and pharmaceutical companies. We provide and/or assist in internal investigations, compliance reviews, and ongoing monitoring. Our experiences allows us to assist clients facing government investigations by the FBI, FDA, HHSOIG, Department of Justice and other related federal and state enforcement and regulatory agencies. We also have experiences that assist clients in addressing HIPAA audits and alleged violations and data breach responses and incident reporting and compliance.
